# **INGAA Foundation Study Development Process**

**PCSR --February 18, 2016**

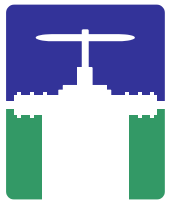

**Richard Hoffmann  
Executive Director  
The INGAA Foundation, Inc.**

# STUDY PROCESS TIMELINE

**NOTE:** In most instances, proposed studies must be submitted for review in advance of the August Planning & Strategy Meeting. Unreviewed study proposals should **not** be submitted at the Spring or Annual Meetings unless warranted by exceptional circumstances. Proponents of studies at these meetings bear a high burden for moving forward.

# INGAA Foundation

## Construction Quality Resources

Building Interstate  
Natural Gas Transmission  
Pipelines: A Primer

Overview of Construction  
Quality Management  
Systems

Pipeline Construction  
Safety Guidelines

Practical Implementation  
of Construction Quality  
Management Systems

Guidelines for Parallel  
Construction of Pipelines

Lessons Learned  
Repository

Specification and Purchase  
Of Segmentable Induction  
Bends and Elbows

Field Applied Coatings  
Best Practices

Line Pipe Quality Series

Training Guidance For  
Welding & Coating  
Construction Workers and  
Inspectors

Guidelines for Pipeline  
Construction During  
Frozen Conditions

Best Practices in Applying  
API 1104, Appendix A

Construction Inspector  
Certification and Guide

Guidelines for Natural Gas  
Line Crossings
